232	EDTASM*	SMPLZAP 3
248	BASIC	SURVEY
248	BASIC	QUESTION
248	BASIC	LOADFILE
272	BASIC	PPREDICT

*EDTASM compatible source code. EDTASM is a product of Radio Shack™, a division of Tandy Corp.

This disk is a 'floppy' and is written to on both sides. Simply 'flip' the disk over to read the other side. As with all software, make a BACKUP immediately.

SIDE B

PAGE NO.	LANG.	FILE NAME
288	BASIC	DIRECT Y RY
300	BASIC	AIRTRAVL
326	BASIC	LEARNA
330	BASIC	MERLIN
348	BASIC	PROJCAL

This disk is a single-density TRSDOS data disk with no operating system. Model I users can simply place their operating system in Drive 0 and the LOAD 80 disk in Drive 1. Model III users must first use the TRSDOS CONVERT utility. Users with only one drive must own an operating system or utility which permits single-file, single-drive copying. Model III owners have the added problem of copying from single density to double density.

If you want information concerning LOAD 80, please call or write to Art Huston, Load 80, 80 Pine St., Peterborough, NH 03458. Tel 603-924-9471. If you want to return or exchange your disk, please write to Lori Eaton, 80 Pine St., Peterborough, NH 03458.

DISCLAIMER

Please note that there is no warranty expressed or implied that these programs will do anything other than save you typing.

LOAD 80 is published monthly by 1001001 Inc., a subsidiary of Wayne Green Inc. The entire contents are copyrighted 1982 by Wayne Green Inc. No parts may be copied for other than your own personal use.

LOAD 80 is manufactured by Instant Software Inc., a subsidiary of Wayne Green Inc.
